## Career Objective

---

A passionate and results-driven software developer with practical front-end development experience gained through internships at Tech Mahindra Foundation and KaroStartup. Proficient in React.js, Tailwind CSS, and modern UI design. Possess intermediate-level backend knowledge with hands-on experience using Node.js, Express, and MongoDB. Eager to contribute to dynamic front-end, back-end, or full-stack development roles while advancing toward a long-term goal of becoming a skilled full-stack engineer.

## EDUCATION

---

**Dr. Akhilesh Das Gupta Institute Of Professional Studies** **2021 – 2025**  
*B.Tech - Computer Science and Engineering - CGPA - 7.7* *New Delhi*

**AIT, Ambedkar Institute of Technology , Shakarpur** **2019 – 2022**  
*Diploma - Computer Engineering - Percentage - 75.2%* *New Delhi*

## Experience/ Internship

---

**\* Web Developer Intern** Jan 2022 – April 2022, *Tech Mahindra Foundation*

- Built responsive website using HTML, CSS for client dashboards.
- Layout Design by CSS- flexbox, CSS-Grid.
- Collaborated in Github, delivering UI updates in weekly sprints.

**\* Front-End Developer Intern** Jan 2025 – May 2025 *KaroStartup Technology India Pvt Ltd, Remote*

- Designed and implemented user-friendly interfaces with React.js.
- Ensured mobile responsiveness and cross-browser compatibility.
- Participated in code reviews and UI testing before deployment.

## PROJECTS

---

• [Ecommerce Clothing Brand](#) [↗](#) | [React](#), [Node](#), [Express](#), [MongoDB](#), [Tailwind](#), [Stripe](#), [Cloudinary](#), [Vercel](#)

- Built a full-stack e-commerce website with user authentication, product filtering, and secure routes.
- Integrated Cloudinary API for efficient image upload, storage, and delivery of product images.
- Developed responsive UI using Tailwind CSS and managed global state with useContext.
- Mobile-friendly UI with dynamic routing and state management
- Database integration with MongoDB atlas.
- Deployed frontend and backend APIs on Vercel, ensuring a scalable deployment pipeline

• [Admin Panel Forever](#) [↗](#) | [Reactjs](#), [Cloudinary](#), [Tailwind](#), [MongoDB](#), [Node js](#), [Vercel](#) ,API

- Developed a dedicated Admin Panel to manage product inventory and track customer orders.
- Add Product: Created a form-based UI to add new products with details like title, price, category, and image upload via Cloudinary.
- List Products: Displayed all added products in a clean, scrollable layout with details like image, name, and price.
- Order Management: Implemented a page to view all orders placed by users, including order contents and payment info.

• [YouTube Clone - Backend](#) | Node, Express, Mongoose, JWT, Cloudinary, Multer, APIs, Postman

- Developed a backend-only YouTube clone using Node.js, Express.js, and MongoDB, featuring RESTful APIs for videos, users, comments, and subscriptions.
- Implemented secure JWT-based authentication, along with like/dislike, comment, and channel subscription systems.
- Designed a scalable backend architecture with proper routing, controllers, and MongoDB schema relationships using Mongoose

• [Some Other-Projects](#) | Frontend, Backend, Database, API Integration 2020-25

- |                     |                          |                            |
|---------------------|--------------------------|----------------------------|
| * Portfolio-React   | * BlogSpot(with Backend) | * Text-to-Speech-Converter |
| * QR Code generator | * Redux Todo             | * Gemini AI clone          |

TECHNICAL SKILLS

**Programming Languages:** C++, C, Python, JavaScript, SQL, Java

**Technologies/Frameworks:** HTML5, CSS3, React JS, Express JS, NodeJS, Bootstrap , Tailwind CSS

**DataBase:** MongoDB compass , MongoDB atlas, Firebase

**Cloud / APIs:** Cloudinary, Appwrite

**Developer Tools:** VS Code, GitHub, Postman, Vercel, ThunderClient.

**Soft Skills:** Problem Solving, Teamwork, Leadership, Emotional Intelligence, Communication, Adaptability, Creativity, Time Management, Critical Thinking, Attention to Detail

COURSEWORK / SKILLS

- |                    |                   |                      |                        |
|--------------------|-------------------|----------------------|------------------------|
| • DSA, AI          | • Oops Concept    | • Computer Networks  | • Software Engineering |
| • Operating System | • Web Development | • Python, Java , C++ | • DBMS, SQL            |
